RESEARCH WEBINAR SERIES

SUSTAINABLE TRANSPORT CORRIDORS IN THE GMS:
ENHANCING CONNECTIVITY, MULTIMODAL TRANSPORT AND GREEN LOGISTICS

Special Speaker

ASSOC. PROF. DR. JANYA CHANCHAICHUJIT
Center for Sustainable Logistics and Supply Chain Management
Faculty of Environmental Management
Prince of Songkla University

9 SEPTEMBER 2026
12.00-13.00 hrs. *(Bangkok time)*
10.30-11.30 hrs. *(India time)*

MEETING ID: 915 7600 7331
PASSCODE: 123PJU

REGISTER NOW

Join us to explore how sustainable transport corridors can strengthen connectivity, improve market access, and support greener logistics across the Greater Mekong Subregion (GMS)

- Resilient transport infrastructure
- Efficient transport operations and border facilitation
- Digitalization and seamless cross-border connectivity
- Multimodal transport and logistics integration
- Green and environmentally sustainable freight
- Regional cooperation and corridor governance

Discover how stronger connections between roads, railways, dry ports, logistics hubs and seaports can help transform countries into more effectively land-linked economies
