Ready Today.

For the challenges of tomorrow

As the global business environment is continuously redefined by rapid technological advancements, heightened connectivity, and evolving work paradigms, the future belongs to those who can adapt, innovate, and lead with purpose. At Jaipuria Institute of Management, we remain steadfast in our commitment to nurturing such leaders. Our AI-native approach, outcome-based learning, ensures that our graduates are not only academically proficient but also industry-ready and deeply attuned to the needs of tomorrow's workplace.

We do not merely impart education; we transform potential. It gives me great pleasure to present the PGDM Class of 2026—a cohort of future leaders who offer far more than credentials. They embody the readiness to navigate complexity and drive meaningful impact.

I am confident you will find the right talent to partner with your organisation's growth journey.

Let us build the future—together.

Meet the Jaipurians

A community of thinkers and leaders from 100+ cities across India

In today's dynamic business environment, the future of work calls for a new breed of leaders: agile, innovative, and ready to navigate a complex global marketplace. At Jaipuria, we're not just responding to change — we're driving it. By integrating AI-driven learning and digital tools into our pedagogy, we ensure our students are equipped with future-ready skills that matter. Together, let's empower businesses with industry-ready professionals, shaped for management excellence and real-world, on-the-ground impact.

Future-Ready Talent. AI-Native Advantage.

At Jaipuria, AI is not an addition—it's a strategic advantage. As India's first B-school with a fully in-house AI Lab that equips students to thrive in an AI-powered business world.

AI-Native Curriculum

- Core course: AI for Managers
- Exclusive elective: Generative AI Transformation
- First B-school in India to offer specialized GenAI training

Smart Placement Tools

- OneCV: GPT-5 powered smart resume builder
- Rehearse: Voice-based AI interview simulator with real-time feedback
- 24/7 AI Coach: Personalized prep with real interview data

Hands-On Learning with AI

- LLM-powered business simulations & strategy games
- Data-driven decision-making tools integrated into coursework

Premium AI Access

- Campus-wide access to GPT-5 and Claude 3.5 Sonnet
- No third-party subscriptions—fully in-house ecosystem

Faculty Empowerment

- AI-enhanced teaching with exclusive tools for course delivery, content creation and student evaluation

Jaipuria isn't just teaching AI. We're building AI - fluent leaders who are ready for tomorrow.

AI into Learning.

From Classroom to Corporate: Personalised Readiness with Individual Development Program

Key Objectives

The Individual Development Program (IDP) is a structured, six-phase mentoring initiative embedded into the academic curriculum to support each student's unique growth journey. Rooted in the belief that personalized development enhances outcomes, the IDP goes beyond classroom learning to address individual strengths, gaps, and career readiness.

Foster self-awareness and identify strengths and development areas

Bridge the gap between aspirations and performance

Build clarity and articulation of one's point of view

Define career progression pathways

Enhance teamwork and collaboration capabilities

Program Structure

Spread across all six terms, IDP follows a mentor-mentee model involving regular check-ins, guided reflections, and customized feedback.

Mentoring Focus

Terms 1–2 : Self-awareness and goal-setting

Term 3 : SIP (Summer Internship Program) readiness

Terms 4–6 : SIP pitching and Final Placement preparation

Assessments

- Review by panel involving Industry Experts, Alumni, and Mentors
- Psychometric Assessments on Locus of Control and Team Effectiveness

Tools

KASH (Knowledge, Attitude, Skills, Habits) portfolio, reflection logs, debrief meetings, and mentor observations ensure continual development.

“The IDP at Jaipuria ensures every student is not just academically strong, but personally and professionally evolved. We see candidates who are self-aware, goal-oriented, and industry-ready—qualities that make a real difference in the workplace.”

Dr. Romi Sainy, Professor

“IDP helped me understand my strengths, set clear goals, and build the skills - needed to stand out. It's not just about learning-it's about growing into the best version of The IDP at - myself, step by step.”

Aliza Abdeen, PGDM Student

complete story.

Potential. Preparation. Performance.

At the heart of our academic philosophy lies a robust, multi-layered training ecosystem designed to transform students into highly capable, ethical, and industry-ready professionals. The following structured initiatives ensure that our graduates are not only job-ready but also future-ready and equipped to thrive in dynamic, technology-driven global workplaces.

Outcome-Based Education (OBE)

We adopt a fully implemented **Outcome-Based Education model**, where each course and activity is aligned with defined Program Educational Objectives (PEOs). These objectives foster ethical, managerial, and entrepreneurial competencies—ensuring students are equipped to lead in real-world scenarios.

Learner-Centric Development

Our approach is **customized to individual learning** needs, recognizing that each student brings a unique background and pace of learning.

Through **IDPs (Individual Development Program)**, students are guided by faculty mentors to assess their strengths and areas for improvement, and to set and track personal and professional goals.

Career Competency Training

Soft skills and Aptitude are an integral component, our students undergo rigorous preparation in:

- Communication, Aptitude, Attitude, and Awareness (CAAA)
- Mock Group Discussions and Interview Simulations
- Public speaking and business writing in Communication Labs

Tech-Integrated & Simulation-Based Learning

Students are introduced to **cutting-edge learning technologies**, including:

- Cesim Business Simulations to build strategic decision-making skills.
- AI-based tools for analytics, resume building and interview preparation.

These platforms bridge classroom learning with practical, tech-driven problem-solving.

Industry Certifications & Functional Readiness

Domain-specific certifications help deepen subject expertise. Pre-SIP training ensures students are workplace-ready through modules on:

- Corporate etiquette
- Compliance (POSH)
- Functional skills mapping

Ethics, Sustainability & Global Citizenship

Ethical decision-making and sustainability principles are woven into our curriculum, with alignment to frameworks like **UNPRME** (United Nations Principles for Responsible Management Education).

Real-world case studies and reflective assessments reinforce the relevance of responsible leadership.

Placement Preparedness & Assurance of Learning

Structured mentoring, recruiter simulations, and resume refinement sessions are embedded across terms. We use Assurance of Learning (AOL) frameworks to continuously evaluate student readiness for top-tier placements.

Bridging Corporate and Campus

At Jaipuria Institute of Management, learning extends far beyond the classroom. Through immersive industry engagement, we ensure students are not only knowledgeable but deeply attuned to real-world business dynamics.

Together, these initiatives bridge the gap between campus and corporate—empowering Jaipuria students to lead with insight, purpose, and impact from day one.

Real-Time Industry Immersion

Guest Lectures by CXOs & Senior Leaders

Students gain direct exposure to sectoral insights, industry trends, and leadership lessons through interactions with top-level executives from organizations across sectors. These sessions help bridge the knowledge-action gap and inspire leadership thinking.

Industry Immersion Program

Students step into the real business environment to observe and learn from operational workflows, strategic discussions, and business challenges, helping them understand how theory translates into practice.

Summer Internship Program (SIP)

Every student undertakes an 8–10 week corporate internship, complete with:

- Defined project objectives
- Deliverables monitored by industry mentors
- Midterm and final evaluations

This hands-on engagement ensures students learn the nuances of professional behavior, analytical thinking and time-bound execution.

Continuous Learning from Practitioners

Jaipuria Masterclass Series

Curated sessions by domain experts and distinguished alumni, focusing on technical skills, behavioural attitudes, and industry-relevant knowledge. These masterclasses strengthen practical know-how and workplace readiness.

Live Industry Projects

Short-term consulting assignments from partner companies expose students to real business problems, encouraging applied learning and stakeholder collaboration.

Leader Speak

Jaipuria's flagship leadership conclave, where top corporate minds and academic experts converge to share insights, inspire ambition, and shape future-ready talent.

Potential Infinite Recognised Worldwide with

Placed Amongst the 1% B-schools in India

Why AACSB matters to you?

Jaipuria Institute of Management stands among an elite group—only 1% of Indian business schools and just 6% globally—that have earned the prestigious AACSB accreditation. This exclusive recognition is a powerful signal to recruiters: when you hire from Jaipuria, you're accessing a talent pool shaped by world-class standards, industry relevance, and a commitment to continuous excellence.

This translates into graduates who are prepared to deliver from day one: adaptive, analytical, and aligned with modern business needs.

When you recruit from Jaipuria Institute of Management, you're tapping into one of the most rigorously vetted, globally recognized business education environments. Our graduates are ready to contribute, lead, and evolve with your organization.

Quality You Can Trust

AACSB (Association to Advance Collegiate Schools of Business) accreditation is the benchmark of excellence in business education worldwide. It assures that Jaipuria:

- Maintains a future-forward, industry-aligned curriculum
- Employs faculty with deep academic and practical expertise
- Equips students with critical thinking, leadership, and ethical decision-making skills

Better Fit. Better Retention.

Research shows that graduates from AACSB-accredited schools report higher career satisfaction, which in turn drives stronger engagement and longer retention in the workplace (Jalbert et al., 2011). With Jaipuria talent, you're hiring professionals with the clarity and motivation to grow with your organization.

A Proven Track Record of Leadership

AACSB-accredited institutions produce 73% of Fortune 100 CEOs and 75% of the highest-paid CEOs globally (AACSB, 2024). Hiring from Jaipuria means investing in individuals who are prepared to lead—not just follow.

It demands adaptable, emotionally intelligent, tech-savvy professionals equipped for real-world challenges. That's why our curriculum is designed to transform potential into performance step-by-step. Across two transformative years, students progress from building strong academic and personal foundations to developing specialised, industry-ready expertise. Through a blend of classroom learning, mentorship, hands-on projects, global exposure, and personalised development, Jaipuria ensures every student is prepared to lead in a fast-evolving business world.
